TWINLOCK

WORLD FIRST BY SW STAHL!

With our unique TWINLOCK system, you have the choice and can configure your workshop trolley in the way that best suits you and your work!

THE TWINLOCK SYSTEM ALLOWS YOU TO OPEN EITHER ONE DRAWER OR ALL DRAWERS AT ONCE!

The conversion can be locked with a separate key.

IT'S YOUR CHOICE!

HOW IT WORKS

TT801 TT802

THE TROLLEY EXTERIOR

YOUR CUSTOMIZED DRAWERS

EXTRA WIDE AND STABLE DRAWER PULL-OUTS.

Our drawers run on extra wide 53 mm rails and feature a high load capacity with a high safety reserve. The rails are only loaded to approx. 50% of their maximum load and therefore have less wear and a long service life. With a load of 50 kg, we guarantee at least 25,000 openings.

PRIORITISING COMFORT.

The drawers close automatically and silently. Even if the trolley moves, the drawer remains closed - no additional locking necessary.

TT801 **TT802**

THE TROLLEY EXTERIOR

CARRIES

80 kg

BIG COVER WITH A LOT OF POWER.

Since our "strong one" is equipped with 2 pairs of pull-out rails, it manages UP TO 80 KG OF WEIGHT! This makes the bottom drawer perfect for heavy tools. Thanks to the height of the drawer, there is also enough space.

TT801 TT802

THE TROLLEY EXTERIOR

SIMPLY SEALED

YOUR TOOLS REMAINS DRY.

The seal between the stainless steel and the side plastic covers means that no liquid enters the trolley. This means that parts smeared or dripping with oil can be placed on the stainless steel cover.

TT801 TT802

THE TROLLEY
EXTERIOR

**THE
PERFECT
GRIP!**

HIGH PERFORMANCE FOR YOUR WORK:

We have redesigned the wheels and the brakes. The design of the wheels has been redesigned and the geometry of the brakes has been completely revised. A subtle colour ring in the wheels underscores the modern design. The wheels with TPE treads ensure smooth and quiet running and perfect grip.

TT801 TT802

THE TROLLEY EXTERIOR

THE SIDE CAN DO MORE!

**WORK SYSTEMATICALLY -
JUST THE WAY YOU WANT.**

The perforated side wall is ideal for attaching a wide variety of accessories. It lets you customise your workshop trolley exactly to your needs.

TT801 TT802

MAGNETIC

The magnetic pockets in the plastic covers keep their contents in place even when the trolley is moved.

KEEP AN OVERVIEW

Each insert has a storage compartment with a printed table of contents. In this way, lost tools can be quickly reordered. The storage compartment can also be used for tools.

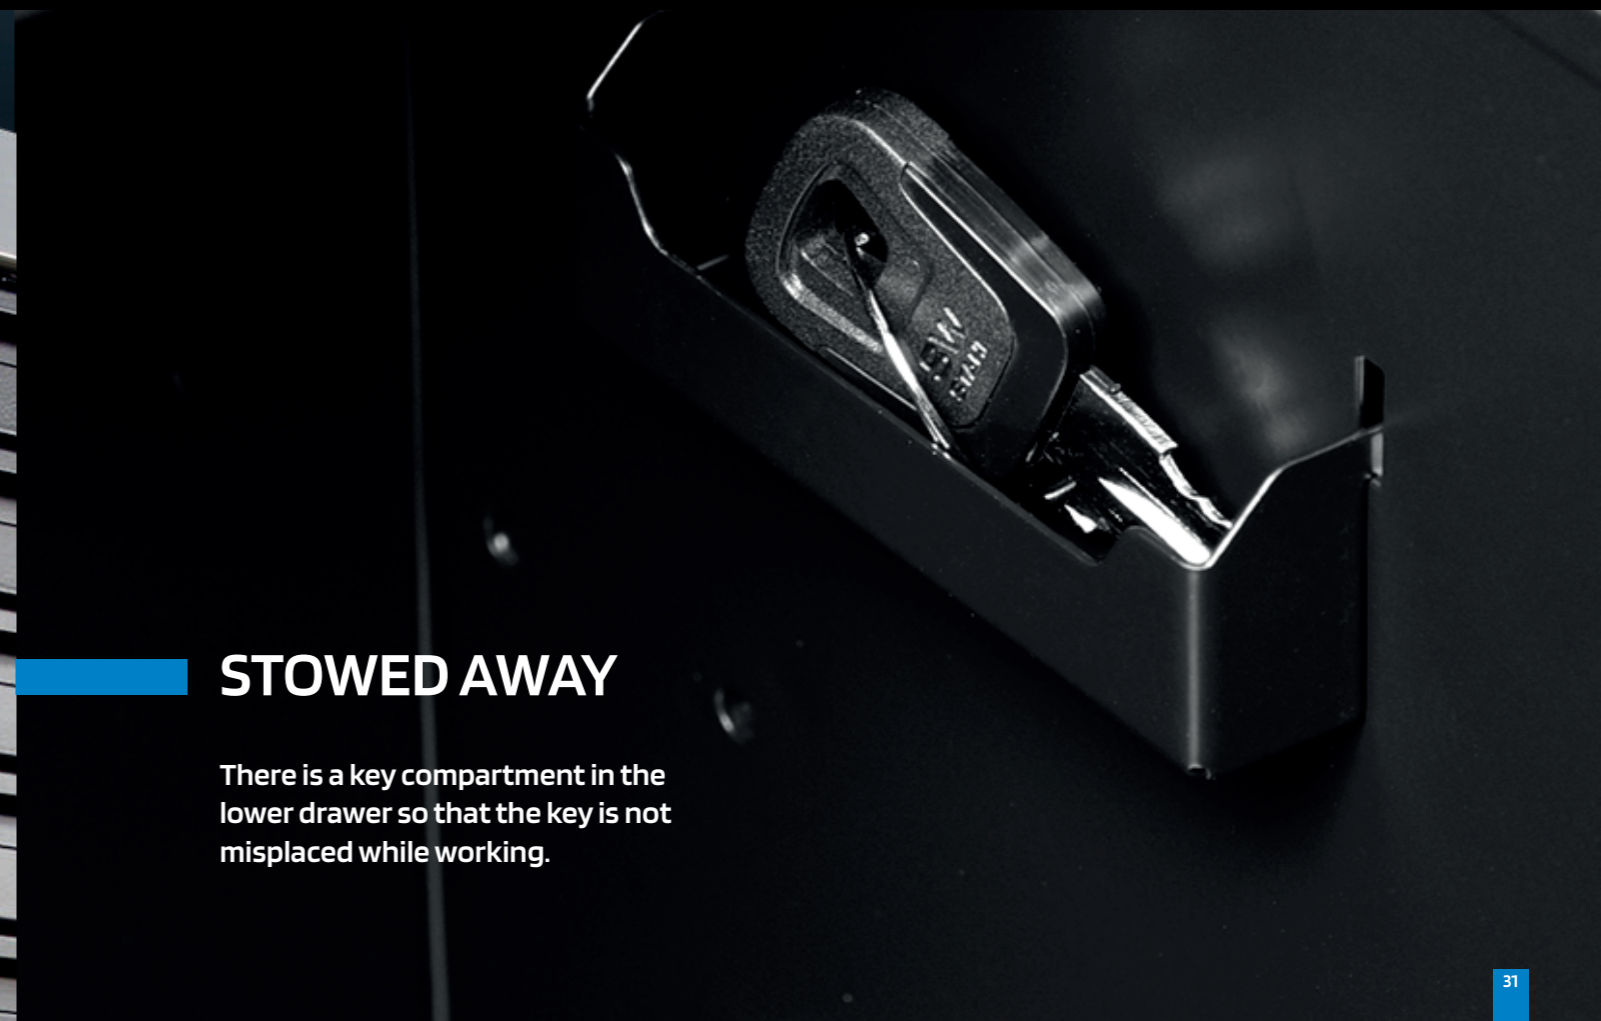

EXTERIOR

DETAILS

NO MORE SEARCHING

No more lost keys! Every workshop trolley receives our SW STAHL key fob with the key.

STOWED AWAY

There is a key compartment in the lower drawer so that the key is not misplaced while working.
